

Handheld Waterproof Endoscope Camera With LCD Screen

Description

Handheld Waterproof Endoscope Camera With LCD Screen is designed for inspection and monitoring in narrow and hard-to-reach areas. It is equipped with Full HD 4.3 inch LCD display and high resolution camera for clear image and video output. The device features compact design, waterproof probe and long flexible cable for easy operation in different environments. It supports image capture, video recording and LED brightness adjustment, making it suitable for inspection and maintenance applications.

Features

- Full HD 4.3 inch LCD display
- 1920×1080 camera resolution
- 5.5mm lens diameter
- 4cm–500cm focal distance
- 70° viewing angle
- IP67 waterproof camera
- Supports TF memory card (not included)
- 2600mAh battery capacity
- 18650 battery type
- Working time up to 5 hours
- 5 meter cable length

Applications

- Industrial inspection
- Automotive inspection
- Pipeline inspection
- Electrical maintenance
- Mechanical inspection

Uses

- To inspect hard-to-reach areas
- To capture images and videos for analysis
- To diagnose internal faults

KHWECLS-2600
