

## KLABS KGMM-35 Grain Moisture Meter

### Product Description

KLABS Grain Moisture Meter is designed for fast and accurate measurement of moisture content in grains and seeds. The instrument provides quick digital display of moisture and temperature data and is suitable for wheat, rice, soybean, rapeseed, corn, barley, and various agricultural products. Compact design and automatic compensation functions ensure reliable and convenient operation.

### Features

- Automation weight
- Automation moisture test
- Automation temperature compensation
- Revision moisture pre test
- Automation switch off
- Newest compensation mode
- Setup standard by customer
- The instrument will be switched off automatically
- Measuring Range Grains, Corn, Barley, Wheat, White Wheat, Rice, Soybean, Peanut, Rapeseed, Sorghum, Long-grain Nonglutinous Rice, Black Sesame, Cottonseed, Cottonseed Meal, Soybean, Rapeseed, Fodder, Vegetable Seeds

**Technical Specifications**

Parameter	Details
Product Name	Grain Moisture Meter
Model	KGMM-35
Test Range	3..35%
Repeat error	equal or less than 0.2%
Test error	equal or less than 0.5% (mainly moisture range)
Test time	10s
Sample	weight 150 gram (excluding the special sample)
Power Supply	5 dry battery or 9 voltage DC.
Temperature	0-40 C
Relative humidity	equal or less than 80%
Accessories	container and filler, cleaning brush, manual
Brand	KLABS

Code	Variety
P1	japonica Valley
P2	soybeans
P3	wheat
P4	rapeseed
P5	corn
P6	barley
P7	long-grain nonglutinous rice
P8	rice
P9	big grain corn
P10	white wheat
P11	peanuts
P12	sorghum
P13	black sesame
P14	oil sunflower seed
P15	watermelon seeds
P16	cottonseed
P17	soybean meal
P18	cottonseed meal
P19	rapeseed
P20	feed pellets
