

KLABS ROUND MICROPIPETTE STAND

Product Description

The KLABS Round Micropipette Stand is a durable and space-saving laboratory accessory designed for the safe storage and organization of micropipettes. Its circular design allows convenient access to pipettes while keeping the laboratory workspace clean and organized.

Manufactured from high-quality polypropylene (PP), the stand provides excellent chemical resistance, durability, and long service life. The sturdy construction ensures stable support and safe storage of micropipettes during routine laboratory operations.

The stand is easy to assemble, simple to maintain, and suitable for research, educational, clinical, pharmaceutical, biotechnology, and industrial laboratories.

Features

- Holds up to 6 micropipettes
- Round space-saving design
- Durable polypropylene (PP) construction
- Chemical-resistant material
- Sturdy and stable structure
- Easy assembly and installation
- Keeps laboratory workspace organized
- Convenient access to stored pipettes
- Easy to clean and maintain
- Suitable for routine laboratory applications

Application/Uses

- Research Laboratories
- Educational Laboratories
- Clinical Laboratories
- Pharmaceutical Laboratories
- Biotechnology Laboratories
- Quality Control Laboratories
- Industrial Laboratories
- Academic Institutions

Technical Specifications

Parameter	Specification
Product Name	KLABS Round Micropipette Stand
Model Number	KL-RPS-06
Material	Polypropylene (PP)
Capacity	6 Micropipettes
Dimensions (L × W × H)	16 × 16 × 30 cm
Assembly Required	Yes
Construction	Laboratory Grade PP Material
Design	Round Rotating Stand
Chemical Resistance	Available
Application	Micropipette Storage & Organization
Country of Origin	India

Standard Accessories

- Round Micropipette Stand
- Assembly Components
- User Manual
