

KLABS MICROPIPETTE STAND FOR 6 PIPETTES WITH DRAWER

Product Description

The KLABS Micropipette Stand for 6 Pipettes with Drawer is designed for convenient storage, protection, and organization of laboratory micropipettes.

Featuring a 6-pipette capacity and an integrated storage drawer, the stand helps keep pipettes, tips, and accessories neatly organized while maximizing bench space. Its upright holding design protects pipette mechanisms and reduces the risk of contamination and accidental damage.

Constructed from durable laboratory-grade materials, the stand provides excellent stability, easy maintenance, and reliable performance for routine laboratory applications.

Features

- Capacity for 6 micropipettes
- Integrated storage drawer for accessories and pipette tips
- Stable and durable construction
- Upright storage design protects pipette mechanisms
- Compatible with most standard micropipette brands and sizes
- Compact and space-saving footprint
- Smooth and easy-to-clean surface
- Helps maintain laboratory organization
- Reduces risk of accidental damage and contamination
- Suitable for research, clinical, educational, and industrial laboratories

Application/Uses

- Research Laboratories
- Clinical Laboratories
- Educational Institutions
- Pharmaceutical Laboratories
- Biotechnology Laboratories
- Quality Control Laboratories
- Industrial Laboratories
- Academic Research Centers

Technical Specifications

Parameter	Specification
Product Name	KLABS Micropipette Stand for 6 Pipettes with Drawer
Model Number	KL-MPS-6D
Country of Origin	India
Item Weight	980 g
Package Dimensions	24.8 × 23.4 × 16.8 cm
Item Part Number	80353
Capacity	6 Pipettes
Storage Type	Integrated Drawer
Compatibility	Single & Multi-Channel Micropipettes
Construction	Durable Laboratory Grade Material
Cleaning	Easy Clean Surface

Standard Accessories

- Micropipette Stand Main Unit
- Integrated Storage Drawer
- User Instruction Manual
