

KLABS MICRO PIPETTE HOLDER (Z-SHAPE)

Product Description

The KLABS Micro Pipette Holder (Z-Shape) is a compact and durable laboratory stand designed for safe storage and organization of micropipettes. The unique Z-shape linear design keeps pipettes in a vertical/upright position, preventing contamination and accidental damage while ensuring easy accessibility during laboratory operations.

Constructed from high-quality hard plastic, the holder offers excellent durability, chemical resistance, and long service life. Its space-saving design makes it ideal for laboratories where efficient bench-top organization is essential.

Features

- Holds 5 Micropipettes in Vertical Position
- Z-Shape Linear Space-Saving Design
- Tough & Durable Hard Plastic Construction
- Chemical Resistant Surface
- Easy to Clean and Maintain
- Ensures Safe Pipette Storage
- Lightweight and Portable Design
- Stable Bench-Top Placement
- Suitable for Routine Laboratory Use
- Quick Access to Pipettes During Operation

Application/Uses

- Biochemistry Laboratories
- Molecular Biology Laboratories
- Clinical & Diagnostic Laboratories
- Research Institutes
- Educational Institutions
- Pharmaceutical Laboratories
- Quality Control Laboratories
- Routine Sample Handling & Pipetting Applications

Technical Specifications

Parameter	Specification
Product Name	Micro Pipette Holder (Z-Shape)
Model Number	KL-MPH-5Z
Storage Capacity	5 Pipettes
Design Type	Z-Shape Linear Stand
Position	Vertical / Upright
Material	Hard Plastic
Chemical Resistance	Yes
Country of Origin	India
Item Weight	150 g
Product Dimensions	20 × 3.5 × 20 cm
Item Height	20 cm
Item Width	3.5 cm

Standard Accessories

- Z-Shape Pipette Holder
- User Instruction Manual
